

	Key Name	Compatible SPD Heads	Diameter	Overall Lenth	Rings/Maria	Usage Explanation
	SPD-1 Legacy Key	SPD-1	#14/20	3.75 inch	3	The one and only key (besides plug) for the SPD-1 legacy. Very short lenth key to compensate for irregular head unit.
	SPD-2 Legacy Key (#14)	NA	#14/20	5.0 inch	5	The one and only key (besides plug) for the SPD-2 legacy (gen1 #14). Head has been discontinued. Short key for a smaller unit. Small variation achieved from using different size keys for this head.
	SPD-2 Legacy Key (#24)	ALL HEADS excluding SPD-1 and GEN5 SPD-6 (#34)	#24/40	6.25 inch	5*	SPD-2 and SPD-3 keys are very similar in sizing. The more length and rings you add will make for more surface area within the volume of the head for interaction between liquid and gas vapors.
	SPD-2 Legacy Key Well	ALL HEADS excluding SPD-1 and GEN5 SPD-6 (#34)	#24/40	6.0 inch	5*	SPD-2 and SPD-3 keys are very similar in sizing. The more length and rings you add will make for more surface area within the volume of the head for interaction between liquid and gas vapors. Well for thermometer.
	SPD-2 Short Key	ALL HEADS excluding SPD-1 and GEN5 SPD-6 (#34)	#24/40	6.75 inch	7*	SPD-2 and SPD-3 keys are very similar in sizing. The more length and rings you add will make for more surface area within the volume of the head for interaction between liquid and gas vapors.
	SPD-2 Short Key Well	ALL HEADS excluding SPD-1 and GEN5 SPD-6 (#34)	#24/40	6.0 inch	7	SPD-2 and SPD-3 keys are very similar in sizing. The more length and rings you add will make for more surface area within the volume of the head for interaction between liquid and gas vapors. Well for thermometer.
	SPD-3 Medium Key	ALL HEADS excluding SPD-1, SPD-2 and GEN5 SPD-6 (#34)	#24/40	7.25 inch	8	SPD-2 and SPD-3 keys are very similar in sizing. The more length and rings you add will make for more surface area within the volume of the head for interaction between liquid and gas vapors.
	SPD-3 Medium Key Well	ALL HEADS excluding SPD-1, SPD-2 and GEN5 SPD-6 (#34)	#24/40	6.5 inch	8	SPD-2 and SPD-3 keys are very similar in sizing. The more length and rings you add will make for more surface area within the volume of the head for interaction between liquid and gas vapors. Well for thermometer.
	SPD-3 Extra Long Key	SPD-3.1 Packable SPD-5.1 FC34 Packable SPD-6 FC45 SPD-6.1 FC45 Packable	#24/40	9.0 inch	15*	The long key was made ideally for packable heads. Adding the extra length acts as another point of rejection making for darker material. The extra surface area helps similar to that of raschig rings in packable heads.
	SPD-3 Extra Long Key Well	SPD-3.1 Packable SPD-5.1 FC34 Packable SPD-6 FC45 SPD-6.1 FC45 Packable	#24/40	8.25 inch	15*	The long key was made ideally for packable heads. Adding the extra length acts as another point of rejection making for darker material. The extra surface area helps similar to that of raschig rings in packable heads. Deepest well for thermometer.
	SPD-6 Short Key Well (#24)	ALL HEADS excluding SPD-1 and GEN5 SPD-6 (#34)	#24/40	6.25 inch	6	Similar in sizing to SPD-2 & 3. This is a short to medium key utilizing normal refinement. 6 rings for less surface area. Well for thermometer.
	SPD-6 Short Key Well (#34)	GEN5 SPD-6 Shorty (#34) GEN5 SPD-6 Nano (#34)	#34/45	7.75 inch	7	The one and only key (besides plug) for the SPD-6 lines (gen5 #34). First of its kind, the larger diameter key well adds more surface area for deeper refinement. Heavy material doesn't stand a chance.

*variation of rings on some keys
