Premier PolyScience® Distributor

Established in the beautiful Santa Cruz Mountains, Summit Research prides itself in local and international sales. Our specialties include technical support, sales, consultations, lab set-up (specifically short path distillation equipment), chemicals, pumps, filtration/media, chillers, and technological process innovations. We offer a range of assistance to our customers through media presentations, social outings, conventions, classes and consultations including on-site technical support. As a growing family business, we strive not only to have the best quality equipment, but also exceptional customer service. We understand the importance of your hard work, research, and the importance of getting you what you need for your hard earned dollars. Therefore, we are constantly listening to our partners and working with manufactures to deliver the highest quality products that bring not only value, but also process break-through and optimization.
