

Glassware

Summit Research has always maintained *Only The Best* standards in scientific labware. Maintaining the highest quality glass is something Summit takes to a new level. Our glass is made out of 100% American made custom genuine certified Schott glass, and it is accompanied with an ASTM Petrol Certified limited manufacturers guarantee to give you the highest quality scientific glassware ever made.

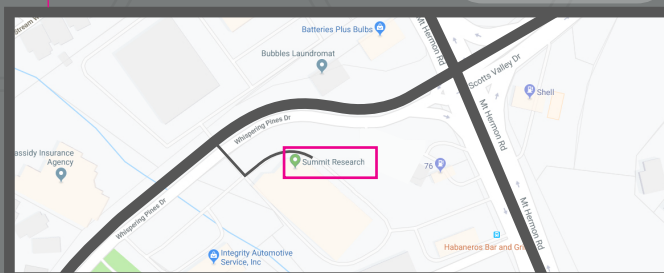

Our company prides itself on ethical business proceedings and good manufacturing practices. We will not settle for less. Safety, Quality, and Efficiency are our goals. Summit Research can customize glass just for you and is constantly ahead of the curve when it comes to innovation in methodical glassware, lab equipment, and most importantly short path scientific glass. Established in the beautiful Santa Cruz Mountains, Summit Research prides itself in local and international sales. Our specialties include technical support, sales, consultations, lab set-up (specifically short path distillation equipment), chemicals, pumps, filtration/media, chillers, and technological process innovations. We offer a range of assistance to our customers through media presentations, social outings, conventions, classes and consultations including on-site technical support. As a growing family business, we strive not only to have the best quality equipment, but also exceptional customer service. We understand the importance of your hard work, research, and the importance of getting you what you need for your hard earned dollars. Therefore, we are constantly listening to our partners and working with manufactures to deliver the highest quality products that bring not only value, but also process break-through and optimization.
